Get More Out of Office 365 with BizPortals 365

A simple way to organize, connect, and manage critical parts of your business all on the Office 365 platform

Your productivity hub

Bring in Office 365 and other business applications together. Have a seamless and unified experience.

More than just an Intranet

More than just for collaboration and document management. Manage all facets of a business with modules for Project, Employee, and Forms management.

Built for simplicity

Easy-to-use. Pre-built templates. Ready-to-go. No coding, IT, or SharePoint skills needed.

Problems Office 365 businesses and SMBs face

Most businesses on Office 365 are only using its basic functionality of email, document management, and light collaboration – thus not leveraging the full suite of Office 365 capabilities. Some other common issues that businesses on Office 365 have are:

✓ SharePoint configurations can be difficult and costly
✓ Office 365 offers a myriad of useful solutions but lacks a unified experience
✓ Low adoption of Office 365 tools

Also, some common pain points for small and midsized businesses are:

✓ Decentralized, costly point solutions
✓ Lack of access and mobility
✓ Manual and wasteful operations
✓ Lack of scalability

BizPortals

The BizPortals 365 Solution

BizPortals 365 addresses these pain points by being a:

- ✓ Single, easy-to-use, access from anywhere workplace solution
- ✓ Hub that integrates functionality across tools, but keeps complexity behind the scene
- ✓ Go-to productivity tool that automates and reduces busy work
- ✓ Ready-to-go solution to minimize IT, setup, and maintenance cost
- ✓ A smart investment that scales and gets more out of your Office 365

BizPortals 365 brings your business and Office 365 together in one place

BizPortals 365 is more than just an intranet

Other SharePoint intranet-in-a-box solutions offer basic document management and collaboration capabilities and focus more on employee engagement, communication, and social features, but don't touch important features that businesses need.

BizPortals 365, on the other hand, is designed to deliver business value. It has modules for Project Management, Forms, HR & Employee Management, and more and it integrates with Office 365 tools and other business applications. BizPortals 365 is a comprehensive digital workplace and intranet-in-a-box solution that helps businesses better manage critical parts of their business and improve their productivity.
